Akhil chaudhary
Front-End Developer

SUMMARY

Hello, Myself Akhil Chaudhary and I am 23 years young. I am a Front-End Developer with a keen interest in End-to-End Software Development, Skilled in JavaScript and ReactJS.

PROJECTS

CAS_DM   May '21 -

CAS_DM(Chat Application)
- This project is an **Instant Chat Application** imitating **Slack**, bringing the team together, wherever you are. Productive teamwork happens in channels — organized spaces for everything related to a project, topic or team.
- It includes full **user Authentication**, add channel option for **user to add channel**, **delete channel** and do **real time chat with other users**.
- **Technologies used : React. JS**, **Firebase**, **Redux**, **Styled Components** for CSS & **Material UI** for Icons.

CASGRAM   Mar '21 -

CASGRAM(Image Gallery)
- This project is an Instagram like **photo gallery app** with **Image uploading** functionality and some subtle **animations**.
- **Technologies used : React. JS**, **Firebase.**

PORTFOLIO   Apr '21 -

Portfolio Websites
- One is made with pure **JavaScript** and **HTML/CSS** without any external libraries .
- The other is build using **React JS**.
